Battery Cable Assemblies & Power Distribution Harnesses

High-Current Cable Assemblies for Critical Power Applications

Overview

WIPE hotwire offers customized Battery Cable Assemblies and Power Distribution Harnesses for construction, mining, off-highway, and industrial machinery applications.

Key Features

- Customized cable lengths and configurations
- High-current power transmission
- Application-specific terminal, lug and connector assemblies
- Reliable terminal and lug crimping
- Robust construction for demanding environments
- 100% electrical and continuity testing
- Prototype and serial production support

Applications

- Road construction machinery
- Mining machinery
- Off-highway equipment
- Agricultural machinery
- Industrial machinery
- Battery and power distribution systems

Product Range

- 35 sq.mm
- 50 sq.mm
- 70 sq.mm
- 95 sq.mm
- 120 sq.mm
